General

No 8768-9 / 480

Bangalore 7th February 1913

From M ama Rao Esq M A
Offg Inspector General of Education in Mysore

To
K R Srinivasiengar Esq M A
Offg Secretary to the Government of His Highness
the Maharaja of Mysore General & Revenue\Departments

Sir

Subject as

With reference to Government Order No 4436-7/Edn 163-12-2 dated 21st December 1912 authorising me to renew the application for affiliation of the Central College in Branch II B (Chemistry) for the B A Pass Course I have the honour to forward herewith copy of letter No 561 dated 6th instant from the Registrar University of Madras with its enclosure being the report of Mr Erlam Smith who was appointed by the Syndicate to conduct the local enquiry at Bangalore regarding the affiliation of the Central College in the said branch and to request the permission of Goverr ment to give the assurances required by the Syndicate mentioned in the Registrar's letter referred to above The Chief Engineer informs me that there will be no difficulty in handing over the build ing to the Principal by the end of April next

The favour of very early orders is requested

I have the honour to be

Sir

Your most obedient servant

M Ramarao

Offg Inspector General

Letter No 561 dated 6th February 1913 from the Registrar of the University of Madras to the Inspector General of Education in Mysore

With reference to correspondence ending with this office letter No 403 dated January 25 1913 in connection with the application for the further affiliation of the Central College Bangalore in Group (ii-B) of the B A Degree Courses I have the honour to inform you that the Report of the local inquiry Bangalore conducted by Mr Erlam Smith has been received and considered by the Syndicate A copy of the Report is forwarded for your information

2 I am directed by the Syndicate to state that on receipt of your confirmation of the assurances enumerated in para 3 of the Report and on your undertaking

(i) that the new chemical block will be completed by 30th June 1913 and

(ii) that by 30th June 1913 the fittings will be complete to the extent of the provision of lecture-tabl of students' working benches and of gas and water supply to all these benches

the Syndicate will be prepared to recommend the application to the Senate A very early reply to this letter is requested

Offg Inspector General

Presidency College Madras

1st Feb 1913

From

W Erlam Smith Esq M A

To

The Registrar

University of Madras

Sir

With reference to your letter No 338 dated 24th January 1913 inviting me under section 21 (2) (b) of the Indian Universities Act 1904 to conduct a local enquiry in connection with an application for the affiliation of the Central College Bangalore in Group ii-B of the B A Degree Course I have the honour to state that I visited the College on Monday 27th January 1913 I beg to return herewith the papers connected with the affiliation application which were received with your letter No 370 dated 25th January 1913 and to present to the Syndicate the following report

2 With regard to the points on which Regulation 375 requires that the Syndicate shall be satisfied the following appear to be the only ones now relevant

(b) Staff and number of students under instruction

The present teaching staff is composed of -

Professor of Chemistry	Mr	F L	Usher	B Sc (London)
Assistant Professor	Mr	C M	Vijayaraghavachariar	B A ii A (Madras)
Demonstrator	Mr	M G	Srinivasa Rau	B A ii A (Madras)

The Principal of the College has asked that an additional Assistant Professor may be appointed to assist with the work of the Junior B A Chemistry Classes Now it is proposed to take in each year classes of the following strength -

38'x 15'), a workshop ~~[illegible]~~ (22'x 21') a dark room (14'x 21') and an acid store room (5'x 18') Under the stair case is a small battery room

On the first floor

(5) A large Intermediate laboratory (38½'x62½') with 40 working places with a balance room (22½'x21½') a preparation room (14½'x 21½') and a room for the assistant staff (38½'x 15½')

(6) A large B A General and Organic Laboratory (38½'x 58½') with a balance room and preparation room (each 18½'x 20½') adjoining and across the stair case-landing, a store room and a furnace room (each 18½' x 18½') There will thus be excellent accommodation for the work in view Structurally however the building is still incomplete

(1) There is no roof

(2) There are no arrangements for a tower to carry water tank this question has been raised but no estimate has yet been made The question is extremely urgent, it will be impossible to start work in July if the tank and water fittings are not installed I estimate the daily consumption of water in the new Chemical Block at 2 000 gallons and it is clear that the 1 500 gallon tank in the tower of the Physics block will not suffice for the needs of Chemistry as well

Services Water supply has been dealt with above Gas and current will be available as at present

Furniture and fittings

The following are the estimates under this head -

of course require keeping up-to-date

(g) Reasonable provision for the recurring expenditure involved in maintaining a chemical laboratory should be mad
I estimate that the total annual cost of European stores and contingencies will be about Rs 3,000

3 I interviewed Mr M Shama Rau, the Ag Inspector-General of Education in Mysore on Monday the 27th January 1913 and, after coming to the conclusions above detailed I again called on him on Tuesday the 28th and obtained the following assurances

(a) The Chief Engineer to the Mysore Government has made arrangements to complete the building and to make it over to the Education Department before the end of April next

(b) The construction of furniture and installation of fittings will be pushed on as rapidly as possible

I said that the matter was under correspondence with Government

(c) A second Assistant (a Chemistry graduate preferab an M A) will be provided for the Chemical Depart ment from July 1913

do

(d) The menial staff will be strengthened

I said that any sum that was need will of course have to be provided

(e) An annual allotment of Rs 3 000 will be assigned t the Chemical Department of the College to meet the cost of European stores and contingencies

In conclusion I can only add that considerable exertions are necessary if the College is to be in a positi to take up the work of Group ii B of the B A Courses in July 1913 I would recommend the desired affiliation provided

(1) that the above assurances are confirmed

(2) that the building is complete by 30th June 1913

(3) that by 30th June 1913 the fittings are complete
